

Proceeding 17-108

Please do not change the way internet is regulated. I can remember how they used to charge per minute to access the internet, in addition to the monthly charge just to access it. That severely limited our use of the internet, and I think the same thing would happen again. Big business should never be given free rein and power over the lives of individuals because greed always wins, and we always lose. These days, government regulation is needed to curtail big business from freely picking our pockets. Thank you. Sharon Huckins
